

Your Microsoft data team, **on subscription.**

A dedicated Power BI, Fabric, and Power Platform team working your business hours for a fixed monthly fee. The output of a full team, without the overhead of hiring one.

100% MICROSOFT

One platform, one team to run it.

Multi-vendor data stacks leak money and trust at every seam. We build entirely inside the Microsoft cloud, so security, cost control, and AI come from one place.

Microsoft Fabric

Lakehouse, pipelines, and real-time data.
The backbone of most of what we build.

Power BI

Governed semantic models and
dashboards your executives open every
day.

Power Platform

Apps and automations wired straight to
your data, governed from day one.

A whole data team, on tap.

Defined capacity + SLA

A set pool of hours each month with a clear response SLA. Unlimited requests within your hours.

In your business hours

A dedicated team working your timezone, in English. Full overlap, no distant-team lag.

Built in your tenant

Everything is delivered and kept in your own Microsoft tenant. You own it. No lock-in.

The hours of one hire, with the full skill set of a team — managed, without recruiting or overhead.

PLANS

Pick the capacity that fits.

Core

160 hrs/mo · ~1 specialist

from \$15k/mo

Monitoring, fixes, tweaks,
monthly review. Keep your BI
running.

MOST POPULAR

Growth

320 hrs/mo · ~2 specialists

from \$28k/mo

Core + named lead, roadmap,
new reports and models each
month.

Scale

480 hrs/mo · ~3 specialists

from \$42k/mo

Growth + architect, governance
(RLS/Purview/DLP), monthly
QBR.

Enterprise

Dedicated pod · 4+

Let's talk

Bespoke scope and staffing,
account manager, enterprise
governance.

Prices are “from” and depend on your environment. Billed monthly in advance, on a 12-month term.

OUR COMMITMENTS

Built to remove your risk.

- ✓ **Working dashboards by week two**
Real value early, not months with nothing to show.
- ✓ **One definition per KPI**
A governed semantic layer so numbers mean one thing.
- ✓ **Senior, certified team**
The people who scope your work are the ones who build it.
- ✓ **Fixed scope, agreed upfront**
You know what ships and what it costs before we start.
- ✓ **Built in your tenant**
Your data and reports stay yours. No lock-in.
- ✓ **Governed from day one**
RLS, Purview, and DLP ship with the build.

HOW IT WORKS

From assessment to your data team.

01

Assessment

A paid 2–3 week assessment proves value on a small, fixed scope.

02

Choose a tier

Pick the capacity and SLA that fit. A 12-month term.

03

We deliver

A dedicated team works your hours, unlimited within the pool.

04

You own it

Built in your tenant, documented and handed over.
